

Pacific Medical Training First Aid Course

Courses that meet NC Child Care Requirements:

Blended (both face-to-face and virtual instruction) courses are permitted in rule so long as the training provided is from an approved training organization and the student's competency has been evaluated by the instructor.

Note: Distance learning (pre-recorded and self-paced) shall not be permitted for CPR

Reference 10A NCAC 09 .1102(c) and (d) for detailed information. Please be aware of specific approved course titles. Ensure course completion cards identify optional modules (i.e. Child & Infant).

The following courses may be used to meet requirements within 10A NCAC 09 .1102 (c) and (d) if found to be applicable to the ages of children in care. Optional modules must be identified on individual course completion cards.

- Adult/Child/Infant CPR, First Aid & AED- meets **First Aid and CPR**

The following courses may be used to meet requirements within 10A NCAC 09 .1102 (c) and (d) if found to be applicable to the ages of children in care. Optional modules must be identified on individual course completion cards.
