

COVID-19 screening course

Introduction

SECTION 1: What is COVID-19?

SECTION 2: Equipment and instruments SECTION 3: Disposal, cleanup

SECTION 4: Screening individuals

SECTION 5: Screening location

SECTION 6: COVID-19 site-specific screening plan

SECTION 7: COVID-19 exposure related questions (Appendix)

SECTION 8: COVID-19 screening release form (Template)

Activity summary

- Activity title: COVID-19 screening
- Release date: 2021-06-01
- Expiration date: 2024-06-01
- Estimated time to complete activity: 1.5 hours
- This course is accessible with any web browser.

Target audience

This activity has been designed to meet the screening and site preparation needs for COVID-19 screeners and facility managers involved in securing workplaces against possible COVID-19 exposure. This includes sites such as construction sites, utilities, offices, and commercial settings.

Prerequisites

1. Pacific Medical Training, COVID-19 prevention for lower risk jobs course

Educational objectives

After completing this activity, the participant should be better able to:

- Recall the different types of relevant equipment depending upon the screening situation
- Identify the correct order to put on and remove equipment

- Demonstrate the various exposure preventative techniques
- Properly wash hands
- Identify applicable protocols to stand up screening
- List the recommended steps to perform screening
- Identify the recommended temperature which persons to screen should be checked for
- Describe what to do if the screener may have been potential contact with a person under screening
- Identify the questions applicable to ask persons being screened
- List the steps to clean and break down a screening setup
- Identify the appropriate contact to notify when breaking down
- Identify the appropriate reference for what to do in emergency situations

Faculty

- (NOT PUBLIC YET) Joanne Kirwin, Environmental, Health, Safety and Sustainability (EHS&S) Professional
- Judith Haluka, EMT-Paramedic – State of Pennsylvania

Disclaimer

Participants have an implied responsibility to use the newly acquired information to enhance patient outcomes and their own professional development. The information presented in this activity is not meant to serve as a guideline for patient management. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested in this activity should not be used by clinicians without evaluation of their patient's conditions and possible contraindications and/or dangers in use, review of any applicable manufacturer's product information, and comparison with recommendations of other authorities.

This course is current with guidelines as of June 1, 2024.
